ECOM INCREASE ONLINE SALES

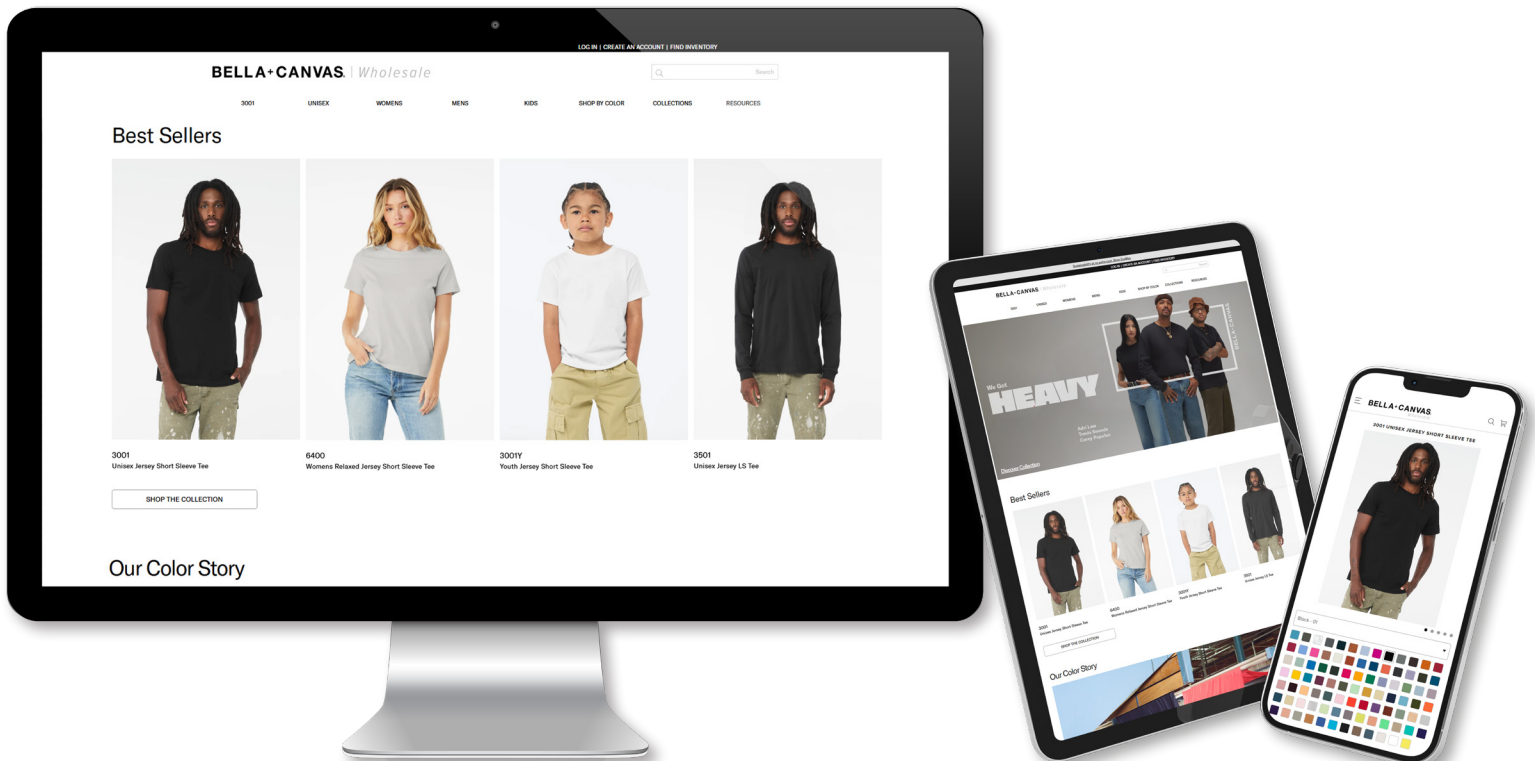

ENHANCE SELF-SERVICES

Utilize the Internet as a global platform for sales and service delivery, accessible to your customers anytime, 24/7. This approach offers significant advantages, including streamlined back-office operations, improved customer service, and increased sales revenue.

Responsive Product Page Templates. Ensure that your site looks and works great regardless of which devices your customers use all managed via one set of data and code eliminating the need for separate mobile sites. Page specific template properties.

An Enjoyable Shopping Experience. In-page editing, multiple publication launches, auto image creation via single high resolution image, Multi-language support, Catalog Management with drag and drop, Catalog Browsing with filters including color.

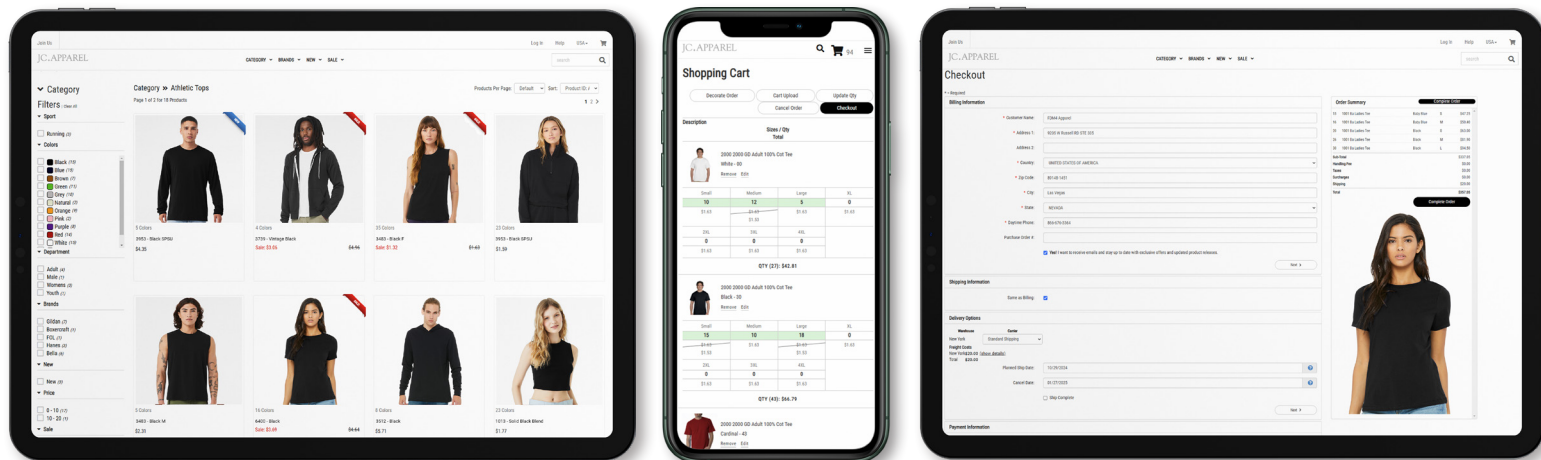

Search Engine Optimization. Dynamic load balancing in a multi-tier environment enables sub-second transaction processing and supports thousands of users during peak loads.

Fully Integrates With Your ERP Solution. Seamless communication between both systems provides real-time information about to stock availability, pricing, order and delivery status, with powerful account management tools.

Customer Specific Catalog and Pricing. Create customer-specific product catalogs and set personalized pricing with options for volume discounts, offers, coupons, and gift cards.

Smooth and Secure Checkout Process. Real-time shipping rates from: UPS, FedEx, USPS. Flexible payments options; PayPal, Credit Card with PCI-compliance, ACH (automated clearing house) and credit terms. Email notifications of orders and shipments.
