WAREHOUSE MANAGEMENT SOFTWARE

MAKING EVERY STEP COUNT

WMS manages the entire supply chain, from procurement to shipping, regardless of inventory type or distribution model. With comprehensive productivity reporting and detailed transaction auditing at every stage, it ensures optimal utilization of all your resources—people, inventory, equipment, and space.

Mapping Manager. Intelligent build of pallet's to increase efficiency in receiving and put away.

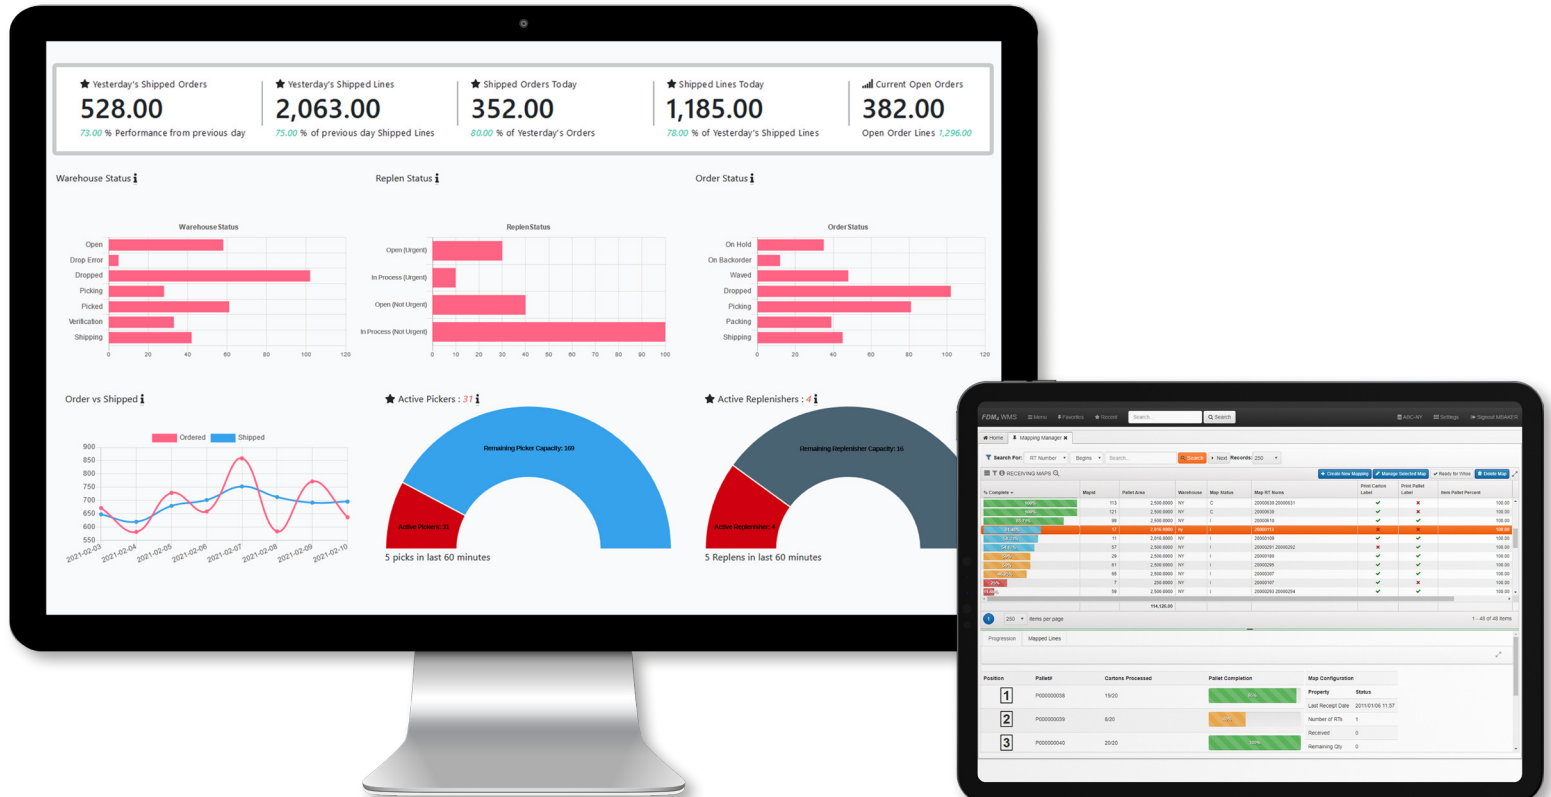

Enhanced Customer Service. Uninterrupted visibility of inventory and order status.

Powerful Flexibility Out Of The Box. With manager-configurable business rules to enforce organizational policies and industry best practices.

Pick to tote
Pick to pack

Pick to pass/zone-picking
Pick to carton ID/label

Multi-order cart pick
Bulk/case picking

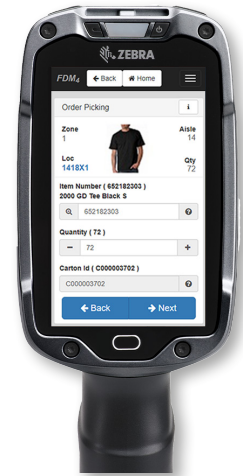

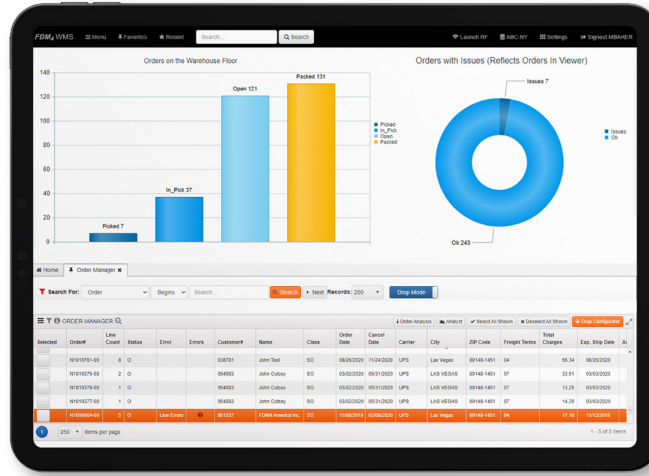

Achieve 99% Inventory Accuracy. With real time tracking via RF scanning and intelligent automation for cycle counts.

Rapid, Accurate Order Fulfillment. Whether you prefer paper-based, RF unit, or automated voice system, you choose the picking assignment.

Maximize Your Warehouse Space. Using the bin hit report, inventory is segregated according to ABC analysis and other user-defined rules – improving productivity and decreasing inventory holding costs.

Faster Stock Turnover. Create a just-in-time environment – with both triggered and on-demand replenishment, ASNs, planned and unplanned receiving, cross-docking, and directed and non-directed put-away.
